

Christchurch Mobile Hairdresser

11 Foxholes Rd
Bournemouth
Bournemouth, Bournemouth BH6 3AT
United Kingdom

Phone: 07854211631
Fax: 07854211631

Christchurch Mobile Hairdresser will bring you the Salon experience to your home.
Only Top brand quality products used. You can keep working from home and keep an eye on the kids.

I specialise in really LISTENING to you.

Far too many Hairdressers do what they want with your hair and what they think suits you. However I strongly believe only you know what you feel good with and confident in maintaining in your busy lifestyle. I will simply give you ideas and let you guide me.

As well as always bringing a SMILE ? I bring a Floor mat to protect your floor. Also a

mirror with a stand so you can see what I'm doing and a very comfortable chair.I bring my own towels and all the top brand products you would find in the Salon!! Your experience will be very upbuilding, much like spending quality time with a close friend

ABOUT ME
I am a member of the Freelance hairdressing Association. Being a part of the association means I am fully insured and keep up with the latest trends. Education is important to me. It means I know how to achieve your desired look while using the best products while keeping the integrity of your hair. I attend between 4 and 6 different courses from cutting to styling to colouring and other professional services each year to keep sharp and motivated and I weekly study and practice my skills to keep me inspired. I want to be the go to person you turn to for any hair advice.

I have been a hairdresser for a few years now. I started my path in a salon and eventually evolved into a business woman. I started running my own business so I could choose my own hours and choose the people I spend my time with.

Which let's face it... you spend a large amount of your life at work so why not spend it with those that bring u joy!! I believe in the mobile hairdressing industry because it often attracts people like myself. Time conscious, Organised, Family orientated people. Gone are the days where you know some who knows how to cut hair and you invite them around with their old pair of scissors they got years ago. Mobile Hairdressing is a highly professional service. You're inviting an expert to your home whom you put confidence and trust in to deliver the results you want. Mobile hairdressing also creates a close community spirit and the people involved are genuinely hardworking lovely people. **WHO'S COMING TO MY HOME**
I decided from a very young age that I didn't want ANYONE feeling the insecure way I felt about their hair and in turn about themselves.

I wanted to create the most relaxed happy experience possible while someone is having their hair done. I want them to feel trust, calm and confident just as they would with a close friend. What better place than inside their own home sweet home!! The client is in charge! They are the boss simply hiring someone to help

them achieve their desired look that fits easily in their lifestyle. **SERVICES**
